The Problem

Traditional Event Ticketing

Ticket Fraud & Counterfeiting

Fake tickets are a common problem, leading to financial losses and disappointment for attendees.

Black Market Resales

Tickets are often resold illegally at much higher prices, making events less accessible to genuine fans.
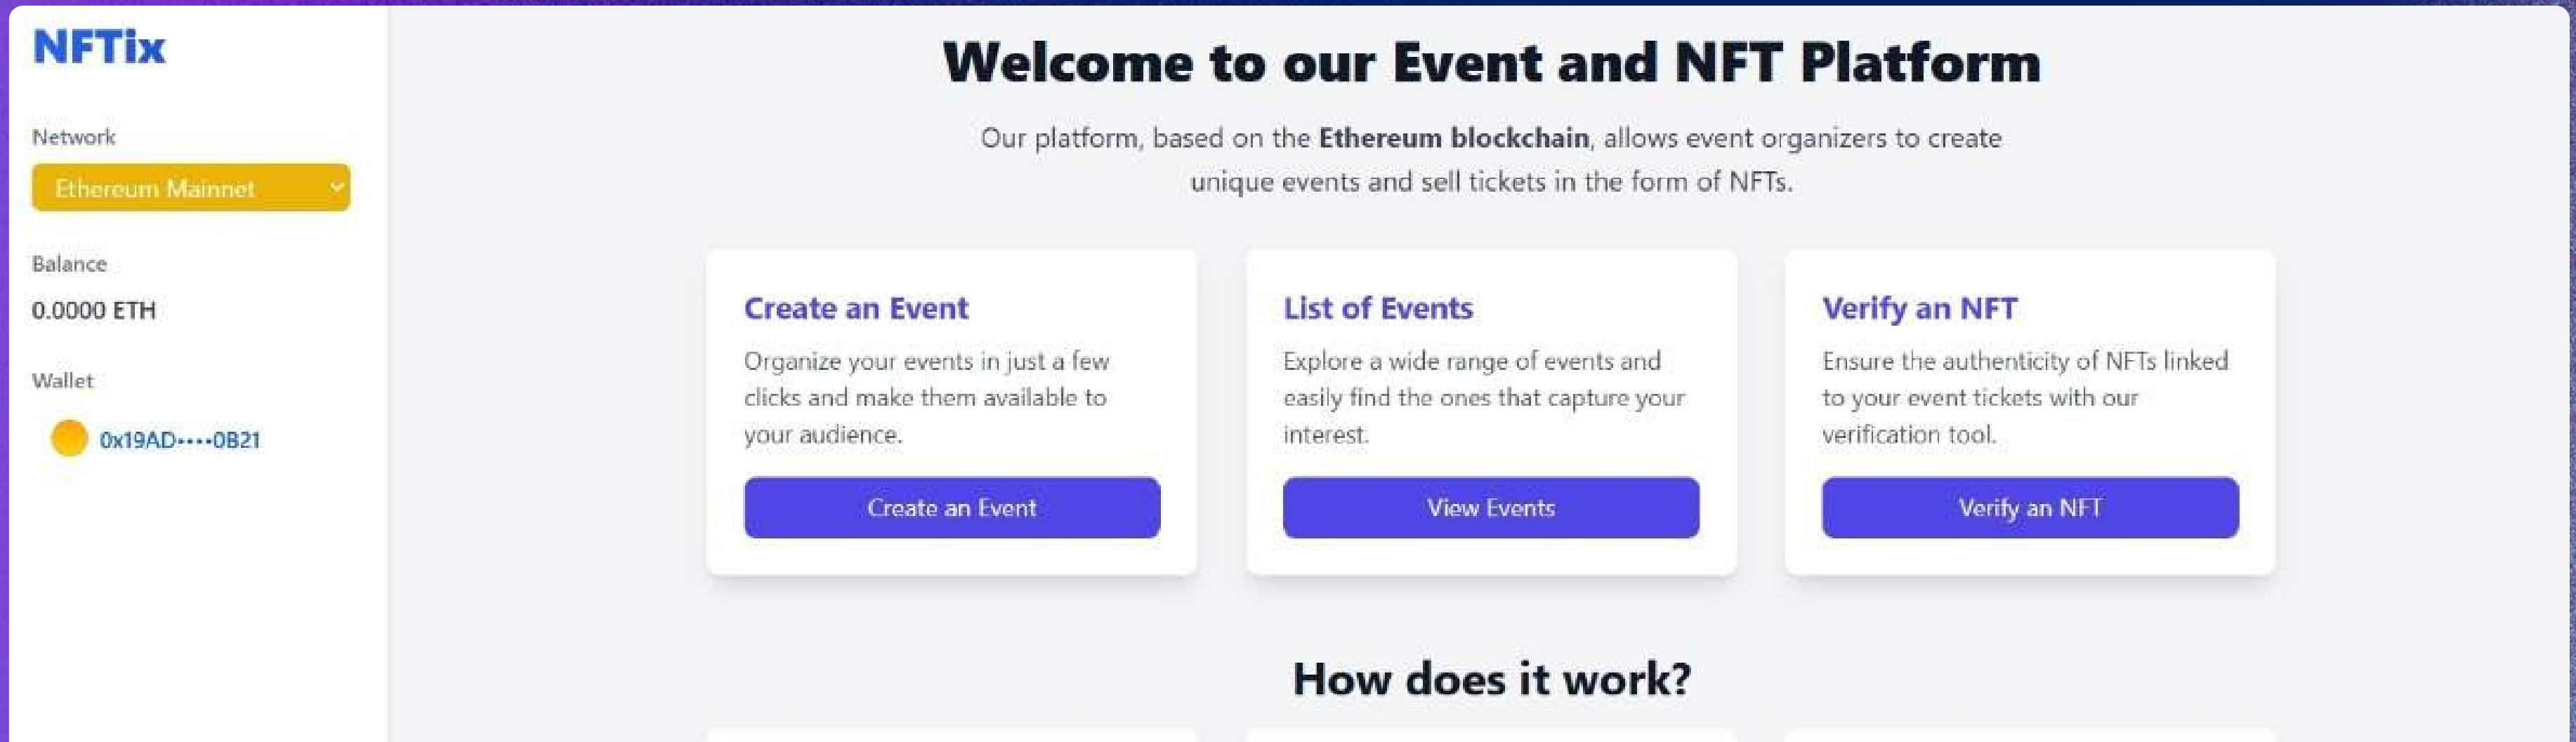

Lack of Transparency

Tracking a ticket's history is difficult, making it difficult to verify its authenticity and ownership.
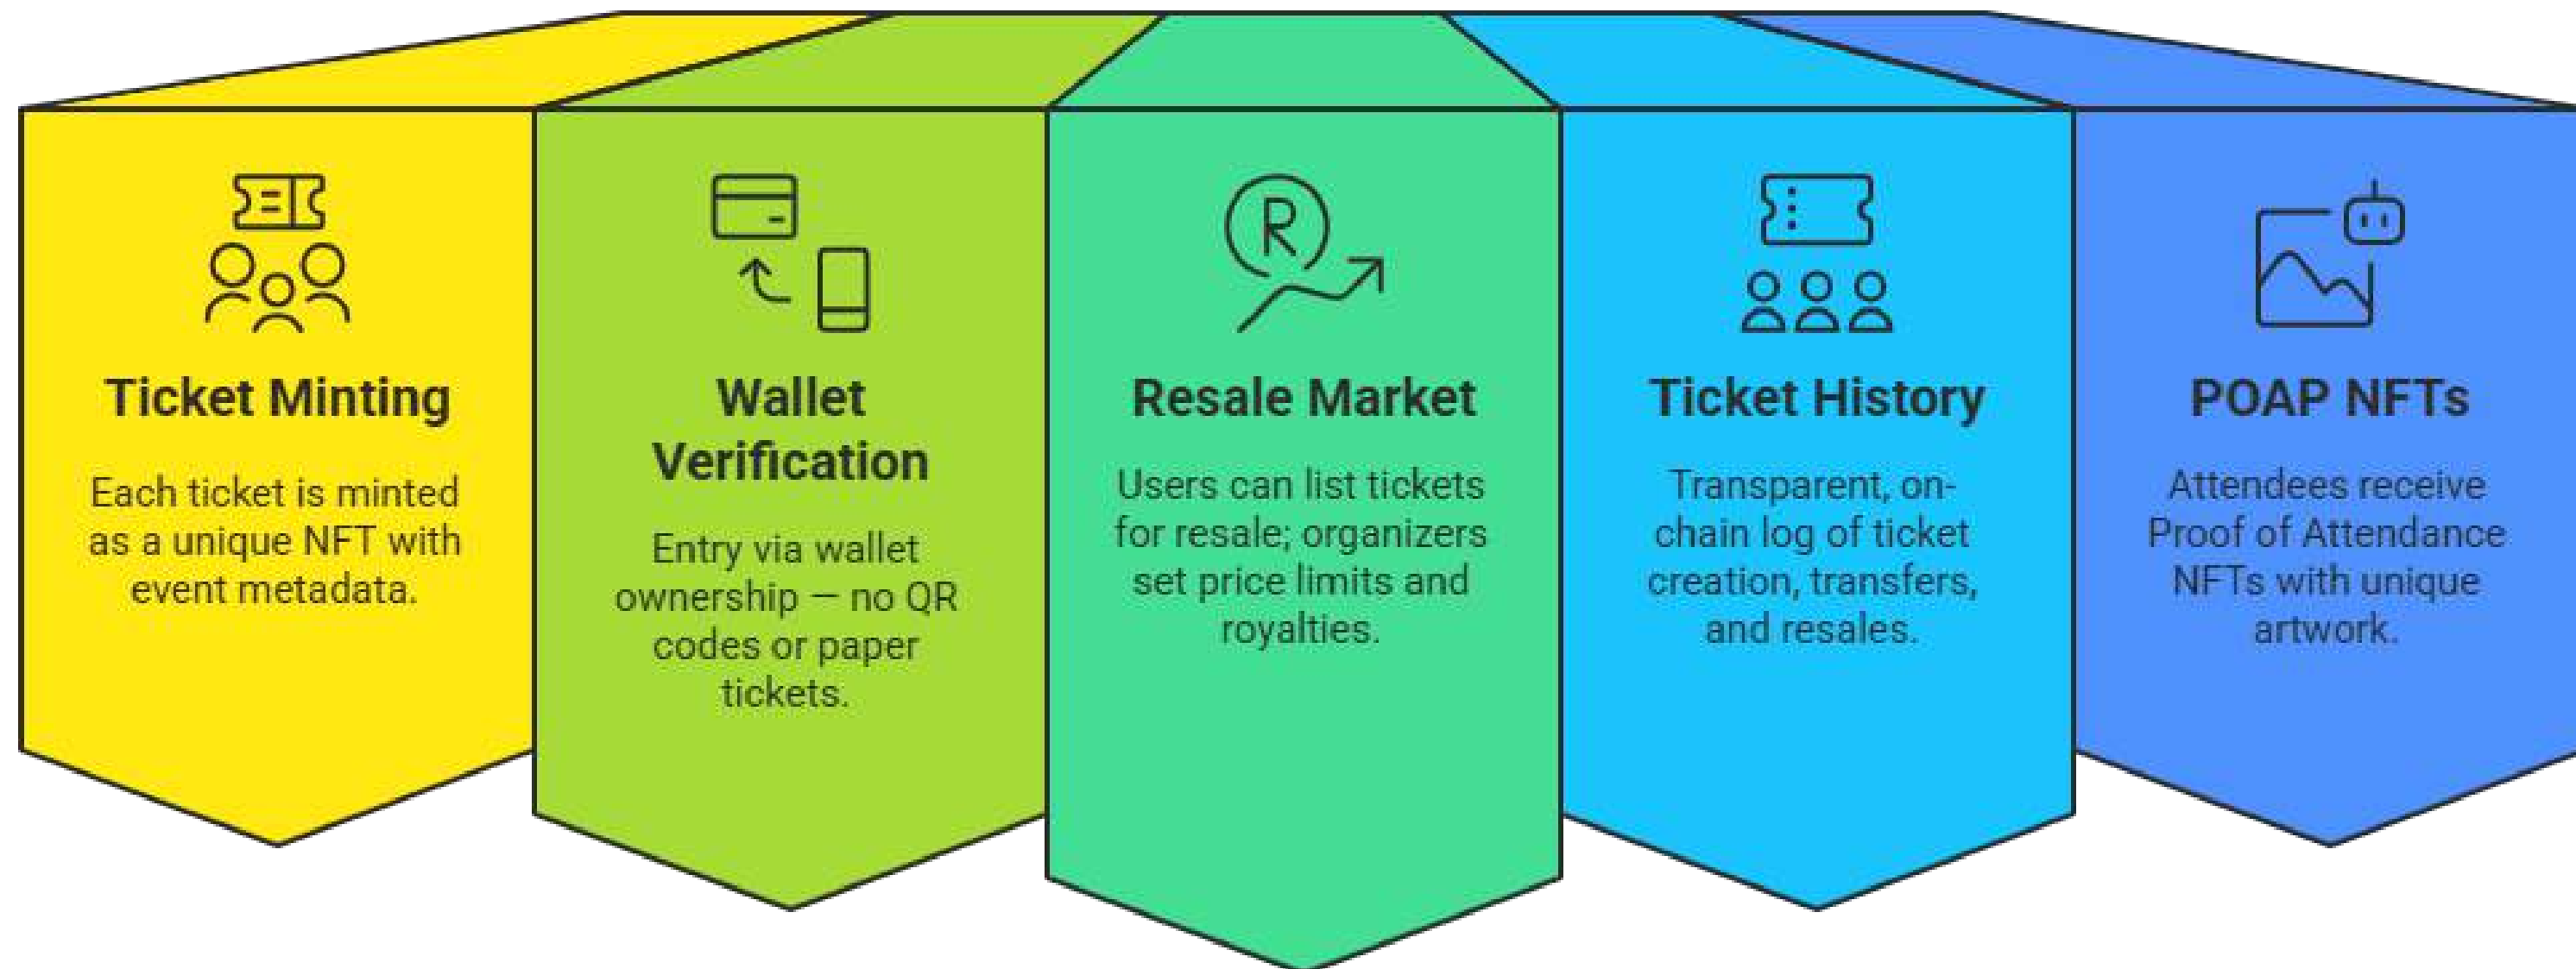

Our Solution

Introducing NFTix

A Decentralized platform that transforms event tickets into secure, verifiable NFTs — ensuring authenticity, transparency, and ownership

NFTix

Network

Ethereum Mainnet

Balance

0.0000 ETH

Wallet

0x19AD····0B21

Welcome to our Event and NFT Platform

Our platform, based on the **Ethereum blockchain**, allows event organizers to create unique events and sell tickets in the form of NFTs.

Create an Event

Organize your events in just a few clicks and make them available to your audience.

Create an Event

List of Events

Explore a wide range of events and easily find the ones that capture your interest.

View Events

Verify an NFT

Ensure the authenticity of NFTs linked to your event tickets with our verification tool.

Verify an NFT

How does it work?

Key Features

Ticket Minting

Each ticket is minted as a unique NFT with event metadata.

Wallet Verification

Entry via wallet ownership — no QR codes or paper tickets.

Resale Market

Users can list tickets for resale; organizers set price limits and royalties.

Ticket History

Transparent, on-chain log of ticket creation, transfers, and resales.

POAP NFTs

Attendees receive Proof of Attendance NFTs with unique artwork.

Work Flow

Organizer Creates Event

Event details filled, NFT tickets minted

User Buys Ticket

Wallet connected, NFT purchased

Optional: Resale

Ticket listed for resale

Ownership Verified On-Chain

Ticket actions traceable

Event Entry

On-site check-in via wallet scan

POAP/NFT Souvenir Issued

Collectible issued post-attendance

Connect the wallet through Meta Mask
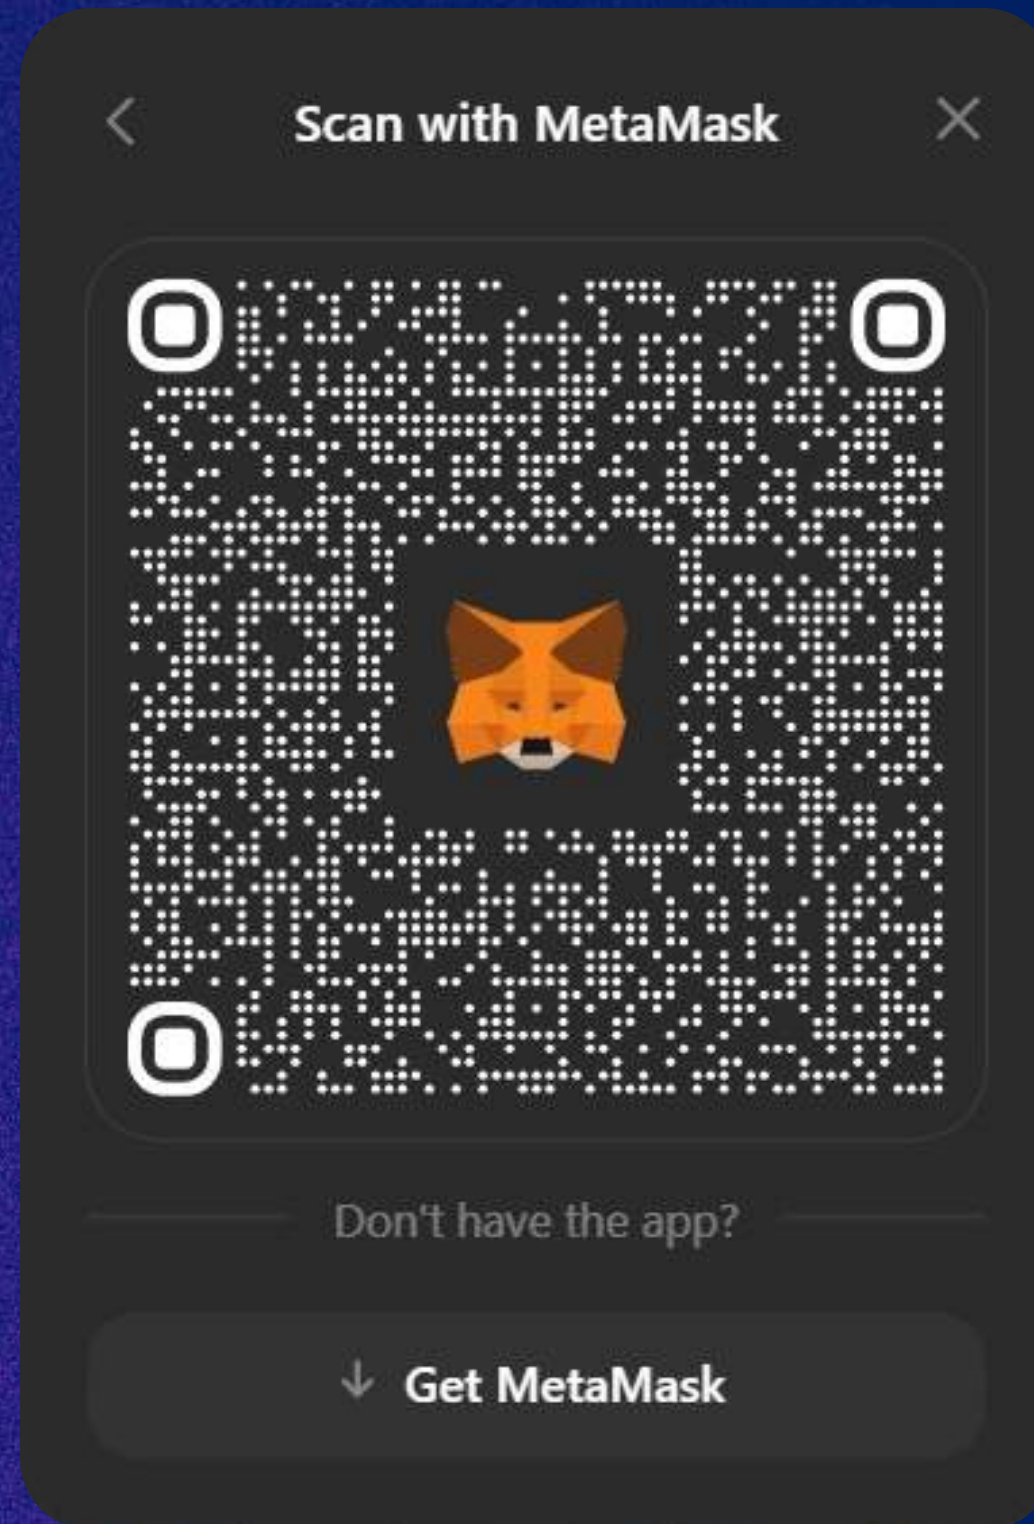

Tech Stack
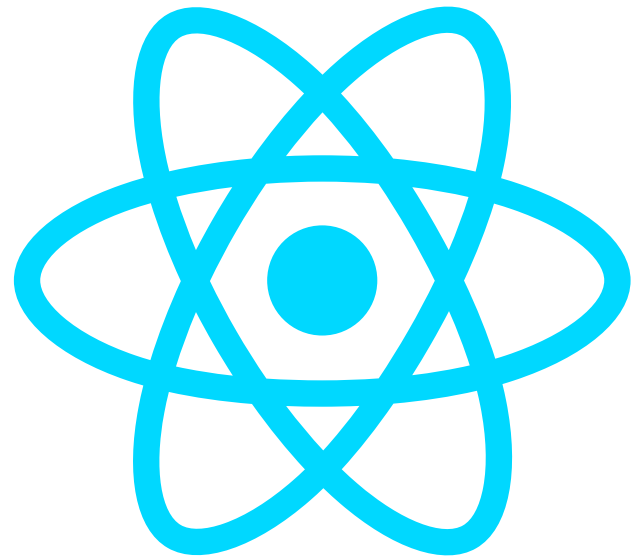

Future Vision

🎓 | Starting on Campus

- Frequent college events : fests, tech talks, hackathons.

- Manual ticketing = fraud, no transparency, zero engagement

- **NFTix brings** :
  - 🎫 | Verifiable NFT tickets
  - 🔐 | Secure, wallet-based entry
  - 💼 | Resale control & royalties
  - 🏅 | POAP collectibles for attendees

🌍 | Scale Global Real-World Potential

- 🎟️ Global Ticketing Market is valued at $70+ billion (concerts, conferences, sports, etc.)

- 👥 Millions of users already use digital tickets — ripe for Web3 upgrade

- **Early adopters:**

  Coachella launched NFT tickets
  UEFA experimented with blockchain ticketing

THANK YOU!
